

**REFERENCE DATUM**

**REFERENCE DATUM**

**Construction Notes:**

1. Do not scale from this drawing.
2. All dimensions in metres.
3. All levels relate to ordnance datum.
4. The drawing is based on the latest Architectural planning layout and shall be read in conjunction with all other relevant longitudinal sections and construction drawings.
5. Any discrepancies with any of the drawings shall be reported to MJA Consulting.
6. The level and location of all existing services shall be verified on site by the Contractor before commencing any construction work.
7. Contractor must comply with all current legislation relating to CDM, Health and Safety and COSHH.
8. All new levels and gradients shown on the drawing for guidance only and may not be drawn out on site. However there is to be no deviation without prior approval.
9. Existing highway drainage network including full gravity connections to be investigated and in full gravity order prior to any new drainage is installed. Min. 150mm gravity connections to be grouted from the downstream manhole.
10. Insitu CBR test required OCC to confirm testing positions.

**Key**

- Proposed Cycle Route
- Advisory Cycle Lane across junctions
- Verge
- Footpath
- Gully
- Existing Back Gully/Gully
- Linear Drain
- Existing gullies and kerb drainage to be broken out. Backfilling to precast gullies to be carried out to sub-base formation with general fill material Class 612. Where mechanical compaction is impractical, backfilling to be in ST2 coarse aggregate (tolerance ± 5mm) with surface.
- Hazard Corduroy Paving - Raised Ribs
- New street lighting - See OCC lighting drawings A4445 (Sheet1 & Sheet2) for specification.

**WHITE LINING SCHEDULE**

| LINE REFERENCE | MARK             | GAP  | WIDTH | DESCRIPTION                                    |
|----------------|------------------|------|-------|--|
| WL1            | No               |      |       |  |
