Figure 8.3: Habitats of Principal Importance

Legend

- Scheme Area
- Habitats of Principal Importance
  - Coastal and floodplain grazing marsh
  - Eutrophic standing waters
  - Lowland calcareous grassland
  - Lowland fens
  - Lowland meadows
  - Lowland mixed deciduous woodland
  - Ponds
  - Possible priority grassland habitat
  - Traditional orchards
  - Wet woodland

Note:
Mapped areas of Coastal and Floodplain Grazing Marsh are not typical example of this habitat type. Phase 1 surveys have mapped these areas as semi-improved species-poor, semi-improved neutral and improved grassland.

This information has been provided by TVERC (2017).
